MONICA T

Bengaluru, Karnataka, India | +91 7483869742 | monicamoni9972@gmail.com

BCA (Data Science) graduate with a foundation in Python, artificial intelligence, machine learning, SQL, and data analysis. Built a Pharmacy Sales Analytics Web Application that brings together data preprocessing, exploratory analysis, sales forecasting using a python-based ML model. Gained industry internship experience in data analytics. Eager to contribute programming and analytical skills to practical AI/ML solutions while continuing to develop technical expertise.

TECHNICAL SKILLS

Programming & Data: Python, SQL, Pandas, NumPy, C, C++, R
AI & Machine Learning: AI fundamentals, machine learning, data preprocessing, feature selection, model evaluation, forecasting concepts
Analytics & Visualization: Exploratory Data Analysis (EDA), Microsoft Excel, Power BI, dashboard development, data visualization
Web Technologies: React, Node.js, Express.js, HTML, CSS
Tools & Libraries: Scikit-learn, XGBoost, Statsmodels, MongoDB

EXPERIENCE

Data Analytics Intern | Cynaris Solutions Private Limited, Bengaluru | 2025

- Collected, cleaned, and analyzed structured datasets to support business and operational decision-making.
- Performed data validation and quality checks to improve data accuracy and consistency.
- Developed Excel reports and Power BI dashboards to track KPIs and communicate trends.
- Conducted descriptive and trend analysis, documented findings, and prepared recurring production reports.
- Collaborated with team members to address reporting requirements and meet deadlines.

PROJECTS

Pharmacy Sales Analytics Web Application

- Developed a web-based analytics application with CSV upload, data cleaning, exploratory data analysis, and sales-analysis workflows.
- Designed features for sales trends, branch and product comparisons, inventory tracking, and low stock/expiry monitoring.
- Implemented the ARIMA (Auto Regressive Integrated Moving Average) time-series forecasting model to predict future pharmacy sales based on historical sales data.
- Analyzed historical sales trends and patterns to generate sales forecasts and support data-driven decision-making.
- Presented sales insights and forecast results through interactive visualizations and dashboards.

- Integrated Python-based ML utilities documented for data preprocessing, feature selection, model training, model evaluation, and time-series forecasting.
- Technology stack: React, Node.js, Express.js, Python, Pandas, NumPy, Scikit-learn, XGBoost, Statsmodels, MongoDB

EDUCATION

Bachelor of Computer Applications, Jyoti Nivas College, Bangalore March-2026
Developed proficiency in programming languages such as C, C++, SQL, Ai, OS, Python, Data Science, ML, EDA, R programming.

PUC
Reddy Jana Sangha PU College, Bangalore | April -2022
Gained Knowledge in physics, Chemistry, Mathematics, Biology.

SSLC Lawrence High School, Bengaluru | July -2020
Comprehensive understanding of core subjects relevant to the SSLC curriculum

ACHIEVEMENTS

Earned a college-level certification in Power BI, demonstrating skills in data visualization and dashboard development. Built interactive Power BI dashboards for business reporting and performance tracking. - Improved reporting accuracy through data cleaning and validation techniques. - Automated Excel reports using pivot tables and formulas, reducing manual effort. - Identified business trends through descriptive analytics to support decision-making.

LANGUAGES

- English - Kannada - Hindi - Tamil

PERSONAL DETAILS

- Date of Birth: 04 August 2004
- Nationality: Indian
- Location: Bangalore, India 560095
- Gender: Female
